PROFILE SUMMARY

Full Stack Developer and AI engineer with experience building scalable backend services, designing user-centric APIs, and integrating AI-driven automation for enterprise clients in both U.S. and Kenyan tech sectors. I work across Python, JavaScript, and Kotlin, applying agile methodologies to develop robust solutions from API design to front-end implementation, including recent work with GCP and cloud functions. Currently at Copy Cat Group, I design systems architecture, drive product development from MVP definition to delivery, and implement computational efficiency through AI tender scraping pipelines.

SKILLS

Languages: Python, JavaScript, SQL, Kotlin, Bash, HTML, CSS

Frameworks & Libraries: React, Node.js, Django, Flask

Databases: PostgreSQL, MySQL, MongoDB, SQLite

Data Analysis: Pandas, NumPy, Data Visualization

AI & Machine Learning: Gemini API, Groq API, Prompt Engineering, LLM Evaluation, Data Annotation, Dataset Structuring, AI Model Training

Automation & Tools: REST APIs, Web Scraping, n8n, Playwright, APScheduler, Git, Postman, Jira, Trello

DevOps & Cloud: Google Cloud Platform (GCP), Oracle Cloud, Docker, CI/CD, Systems Design, Cloud Functions

AI & Specialist Tools: Software Engineering, Core Experiences Team, User Experience Design, Cross-Platform SDK, Optimization, Algorithm Design, Kotlin Multiplatform, Remote Collaboration, Product Management, Design Thinking, UX/UI, SDK Development

Platforms & Methods: Abstraction, Efficient Algorithms, Cloud Computing, Backend Development, SDK, Design Patterns, Product Strategy, Cross-Functional Collaboration, Design Optimization, Cloud Services, Lightweight Architecture, Job Scheduling

PROFESSIONAL EXPERIENCE

Full Stack Developer

Copy Cat Group | Nairobi, Kenya | November 2025 – Present

- Integrated SAP APIs with internal Credit Control System, automating enterprise workflows and backend services.
- Authored comprehensive System Design Documents, formalising project scope for data, integration, and security architecture.
- Designed agent specifications and prototyped an AI tender scraping pipeline for automated discovery and computational efficiency.
- Defined problem statements and built MVP Product Trackers, driving client-facing product initiatives.

AI Data Annotator

Sama Kenya | Nairobi, Kenya | October 2025 – January 2026

- Generated accurate difference-based captions, training AI models with multimodal datasets.
- Performed categorisation and validation to improve multimodal AI model accuracy and consistency.
- Contributed high-quality annotated outputs directly feeding into production AI model training pipelines.

Full Stack Developer

Cybasoft | United States (Remote) | June 2025 – November 2025

- Delivered full-stack solutions for U.S.-based clients, optimising APIs and UI components.
- Developed responsive UI components and managed CMS-based systems for diverse client projects.
- Collaborated remotely on debugging, performance improvements, and implementing client feedback through agile methodology.

AI Data Annotation Specialist

Digital Divide Data (DDD) | Remote | May 2025 – October 2025

- Annotated and evaluated datasets for health and agriculture AI systems
- Performed intent detection, slot tagging, utterance verification, and structured dataset creation
- Ensured annotation quality and consistency across multilingual and multimodal training data

AI Evaluator

Sama Kenya | Nairobi, Kenya | September 2024 – December 2024

- Evaluated AI-generated content, providing structured feedback to improve model accuracy.
- Assessed natural language response quality across diverse prompt categories and user-centric designs.
- Contributed to model alignment and quality assurance pipelines, enhancing product reliability.

AI Expert Annotator

Mindrift / Toloka | Freelance (Remote) | May 2024 – June 2025

- Created high-quality datasets and designed annotation instructions for multilingual model training
- Performed pairwise ranking, difference-captioning, and image-based AI training tasks
- Maintained annotation accuracy and delivered structured outputs for LLM and multimodal models

Web Developer & SEO Content Mentor

Freelance | Remote | May 2024 – September 2024

- Built custom websites on WordPress and Wix with optimised performance and SEO structure
- Mentored content writers on clarity, tone, and content structure for web audiences

Monitoring & Evaluation Staff

Moja Expressway | Nairobi, Kenya | March 2022 – May 2023

- Collected and analysed road-use data and compiled monthly performance dashboard reports
- Tracked KPIs and communicated findings to management to support operational decisions

Constituency Officer

Uwezo Fund Oversight Board | Kenya | January 2020 – December 2020

- Reviewed grant applications, supported field vetting processes, and documented project progress
- Maintained accurate records and coordinated reporting to county-level oversight structures

CERTIFICATIONS

- Software Engineering – Moringa School
- Virtual Assistant Program – ALX Africa

EDUCATION

Bachelor of Science in Statistics

University of Nairobi

Referees: Available on request
