## PROFILE SUMMARY

Senior Software Engineer with a full-stack background, currently leading AI-driven projects at Copy Cat Group. I've built end-to-end systems across the stack, from Python backends to React frontends, and have deep experience in AI data work, including model evaluation, prompt engineering, and dataset structuring. My recent focus is on production-level AI integration, exemplified by my current work on a live SAP API integration and an AI-powered tender scraping pipeline.
