PROFILE SUMMARY

Senior Software Engineer with a full-stack background, currently building production systems at Copy Cat Group. I work across Python, JavaScript, and SQL, with a focus on Node.js, React, and PostgreSQL. My experience spans from backend development and REST APIs to frontend UI improvements, with a strong emphasis on scalability and collaboration. I've led projects through the full software development lifecycle, from system design to product delivery, and have a proven track record of technical leadership in large-scale applications.
