PROFILE SUMMARY

Full Stack Developer with a focus on AI-driven solutions, currently building production systems at Copy Cat Group. I work across the entire stack, from Python backends and REST APIs to React frontends, with experience in both U.S. and Kenyan tech companies. My recent projects include integrating SAP APIs with internal systems, designing system architecture, and building an AI-powered tender scraping pipeline. I have a strong foundation in backend development, API integration, and frontend usability, with a keen interest in cloud-based microservices.
