PROFILE SUMMARY

Full Stack Developer and AI Data Engineer with a focus on building robust data pipelines and automation solutions. I have experience across the full stack, from Python backends to React frontends, and have worked with diverse data sources and APIs. Currently, I'm leading the development of an AI-powered tender scraping pipeline at Copy Cat Group, integrating SAP APIs with internal systems, and designing comprehensive system architecture documents. My expertise lies in creating efficient data flows, from data acquisition to deployment, ensuring clean, structured data for business insights.
