PROFILE SUMMARY

Full Stack Developer with a DevOps focus, currently building production systems at Copy Cat Group. I work across the full stack, from Python backends and REST APIs to React frontends, with a focus on enterprise-level solutions. My recent projects include integrating SAP APIs with internal systems, designing comprehensive system architecture documents, and building an AI-powered tender scraping pipeline. I have a strong background in AI data annotation and evaluation, having worked with various LLM and multimodal models.
