PROFILE SUMMARY

Senior DevOps Engineer with a strong background in software development and automation. I excel in Python, Golang, and Bash scripting, and have extensive experience with CI/CD pipelines, test automation, and infrastructure management. Having worked across both on-prem and cloud environments, I bring a holistic approach to DevOps, from design and development to deployment and maintenance. I am currently leading full-stack development at Copy Cat Group, where I drive AI-powered automation projects, including an SAP API integration and an AI tender scraping pipeline.

- Designing and documenting enterprise architecture, including application, data, integration, and security layers for the Innovation Team.
- Driving an AI-powered tender scraping pipeline, from agent specification to prototype, to automate tender discovery and processing.
- Building MVP Trackers and defining problem statements to initiate and deliver client-facing product initiatives.

AI Data Annotator

Sama Kenya | Nairobi, Kenya | October 2025 – January 2026

- Train AI models by generating accurate difference-based captions for multimodal datasets
- Perform categorisation, bounding, consistency checks, and image-level validation to improve multimodal model accuracy
- Contribute high-quality annotated outputs that directly feed into production AI model training pipelines

Full Stack Developer

Cybasoft | United States (Remote) | June 2025 – November 2025

- Developed and delivered full-stack solutions for U.S.-based clients across different sectors
- Built UI components, optimised APIs, and handled CMS-based website systems

- Collaborated with remote teams to debug, improve performance, and implement client feedback

AI Data Annotation Specialist

Digital Divide Data (DDD) | Remote | May 2025 – October 2025

- Annotated and evaluated datasets for health and agriculture AI systems
- Performed intent detection, slot tagging, utterance verification, and structured dataset creation
- Ensured annotation quality and consistency across multilingual and multimodal training data

AI Evaluator

Sama Kenya | Nairobi, Kenya | September 2024 – December 2024

- Evaluated AI-generated content and contributed structured feedback to improve model accuracy
- Assessed natural language response quality across diverse prompt categories
- Contributed to model alignment and quality assurance pipelines

AI Expert Annotator

Mindrift / Toloka | Freelance (Remote) | May 2024 – June 2025

- Created high-quality datasets and designed annotation instructions for multilingual model training
- Performed pairwise ranking, difference-captioning, and image-based AI training tasks
- Maintained annotation accuracy and delivered structured outputs for LLM and multimodal models

Web Developer & SEO Content Mentor

Freelance | Remote | May 2024 – September 2024
