PROFILE SUMMARY

Full Stack Developer and AI engineer with a diverse skill set spanning the entire software development lifecycle. I have hands-on experience in building and maintaining full-stack applications, from Python backends and REST APIs to React frontends, with a focus on usability and scalability. My expertise extends to AI data work, including model evaluation, prompt engineering, and dataset structuring, as well as automation using tools like n8n and Playwright. Currently, I'm leading the development of production-ready systems at Copy Cat Group, integrating SAP APIs with internal systems and building AI-powered tender scraping pipelines.
